ABOUT ME

Political Data Scientist with 10+ years of experience in mixed methods research. Currently helping governments, CSOs, and NGOs to conduct research, measure, evaluate, and report the impact of their initiatives.

I have led technical projects related to media literacy, mis- and dis-information, judicial protection of Venezuelan migrants, migrant integration, affective polarization, participation of women in politics, "anti-vax" movements, COVID-19, and sports for development (S4D).

Excellent communication skills to present technical analysis to non-technical audiences.
